NOTE FOR: Mr. Gambino

FROM:

Chief, CSG

1. Attached is a copy of Attorney General's response on adjudication paper.

2. They say the stand of homosexuality being an automatic bar would be unlawful and suggest that we continue the idea of looking at the "whole person" in this area just as we do in other areas.

3. [ ] rejects this position completely. [ ] says he has no trouble with the idea of being consistent about the "whole person" concept.

4. This is an example of Justice not putting in their nickles worth during staff efforts. Their paper will result in remanding the adjudication paper back to SECOM from NFIB.

5. It is expected that NSA will remain negative to the whole idea of need for adjudication guides, but they have not yet submitted a position or comments to the NFIB.

6. Please return and we will work up a position for your consideration.
